Prof. Aicheng ZHANG
School of Earth Sciences and Engineering
Nanjing University
Nanjing 210023
P.R. China

Dear Prof. Aicheng Zhang,

I would like to invite you to visit our electron-beam analytical facility for a week from March 4 to March 10, 2024 before the 2024 Lunar and Planetary Science Conference, for collaboration on advanced application of Electron Back-scatter Diffraction technique to mineralogy and meteorite research. As I understand, your research funding will support your travel and living expenses.

If there is anything further that I can do to help with arranging your visit, please let me know.

Sincerely,

Chi Ma, Ph.D.

Director of the GPS Division Analytical Facility
